

Vision

- ❖ IT is one of the main pillars of MoE strategy
- IT should be an enabler to all MoE functions
 - ☐ Support each teacher, employee, and official to do his job
 - ☐ At all levels of the Ministry
 - ☐ Provide all services electronically to stakeholders
 - ☐ Provide accurate information all times

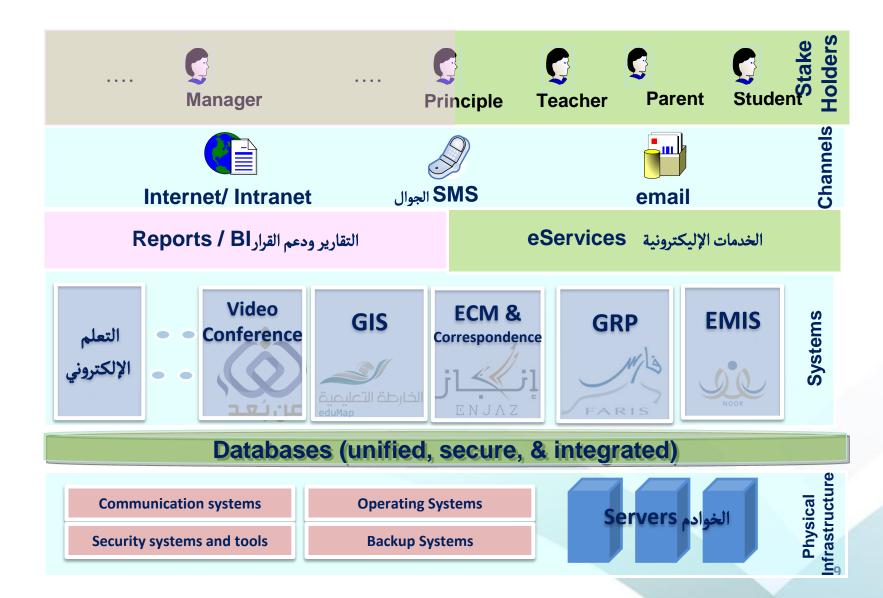

IT role to support this vision

- Enhance teaching and learning activities through eLearning, eTraining and other methods and tools
- Enhance assessment
- Enhance communication with parents and communities
- Enhance the management of and support to the education process

The Needed Infrastructure

- Central systems
 - ☐ Different architectures available
 - ☐ Utilize the economy of scale / power of scale
 - ☐ Give autonomy and flexibility as much as possible
- Connectivity
- School and classroom infrastructure

IT infrastructure for MoE Saudi Arabia

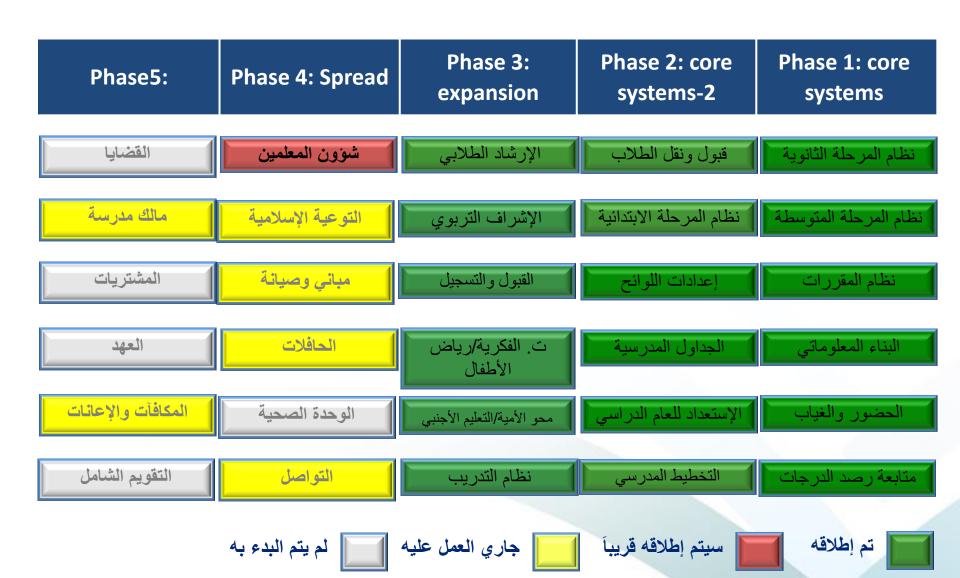

نظام نور للإدارة التربوية

NOOR Education Management System

Different subsystems

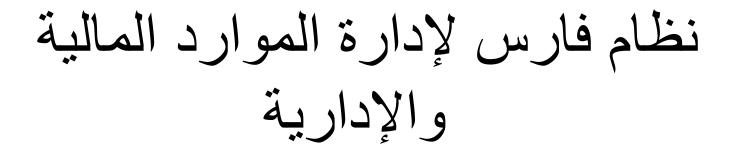

NOOR System
